

# SEAT BELT BADGES: INSTRUCTIONS

Children who are under nine years of age, who weigh between 40 and 80 lbs (18 – 36 kg) or are less than 4' 9" (145 cm) tall are safest in a booster seat. Without a booster seat, an adult seat belt rides too high on the belly and neck and can cause serious internal injuries in the event of a crash. Boost up and be safe!

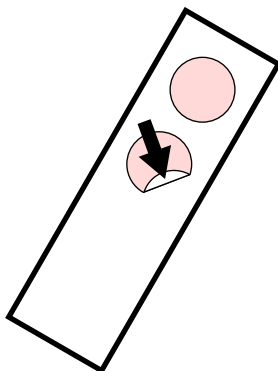

To help your child learn to love their booster seat, use these fun seat belt badges to help chart your child's growth. There are different badges for each height and weight milestone – a great way to track a growing kid!

- 1** Purchase **Avery #8293** 1-1/2" round labels.

- 2** Print page 2 and 3 of this PDF on a sheet of Avery #8293.

- 3** Colour and apply stickers on to a seat belt. You're done!
