

SEAT BELT COZY: INSTRUCTIONS

Children who are under nine years of age, who weigh between 40 and 80 lbs (18 – 36 kg) or are less than 4' 9" (145 cm) tall are safest in a booster seat. Without a booster seat, an adult seat belt rides too high on the belly and neck and can cause serious internal injuries in the event of a crash. Boost up and be safe!

Help keep your child comfortable in their booster seats with a soft and stylish seat belt cozy! Slip it around where the seat belt sits across their shoulder to solve any discomfort or chafing.

Time: 30 minutes

Before you get started, you will need the following materials:

- Two pieces of fabric cut out at 6.5"L x 7.5"W (one as backing, and the other with any children's pattern)
- A piece of flannel, fleece, or any soft material as padding cut at the same dimensions
- Two pieces of velcro cut at 6"

Layer the fabric with right sides together, as shown to the left (from bottommost to top: backing, patterned outside, and soft padding).

Sew around the edges from either side using a 1/2" seam allowance, and leave a gap open to later turn the cozy inside out.

1

2

Turn the sewn fabric inside out.

3

Press the cozy with an iron and sew the gap closed.

4

Sew a piece of your 6" velcro to the short side.

5

Turn over and attach the other piece of 6" velcro to the front side. Fold the fabric in thirds to see where the velcro pieces will match up.

6

After the velcro is attached, your cozy is ready to wrap around your vehicle's seat belt!
